FRRRC Executive Director Meade Issues Statement On Governor's Clemency Reforms

"Today's clemency reforms represent a big step forward for returning citizens in Florida. The changes approved today will create a pathway for hundreds of thousands of returning citizens to have their civil rights restored. These changes will also eliminate many of the waiting periods currently denying people access to restoration. The new policies are the result of years of hard work and advocacy by Florida's returning citizen community who work tirelessly to create safer communities, and allow people with past convictions to fully reintegrate with their communities. It is verification of the idea that good policies are possible when we put people's interests ahead of politics."
